## Interview Questions

Come up with five questions that will help you, and others, to know the person you're interviewing. You might want to ask them what their favorite color is, where they're from, what are the best and worst things about SCSU, or even something more quirky like "How do you eat a Reeses Peanutbutter Cup?"

Have fun with this, and be ready to introduce your person, by saying their name and stating one telling fact about them, in ten minutes.
