

Cummings Journal Work (10 min)

In your journals, take about two or three minutes to write down a word or phrase that seems to match Cummings philosophy of classroom management:

Some possible examples:

- “Spoil the rod, spare the child.”
- “Child-centered curriculum.”
- “Fostering self-control.”

After two or three minutes I will ask that everyone share their response to the prompt, and then we will begin a conversation about Cummings and her approach to classroom management.
